Distinctive fabrics and versatile lifting systems that transform your home.

WHISPER® Shades Collection

WHISPER® Cellular Shades

WHISPER® Cellular Shades combine style, versatility and functionality, to provide you with innovative and modern window covering solutions to suit your home. Available in a range of operating systems and speciality shapes, WHISPER Cellular Shades are the perfect solution for almost all window applications.

- The unique cellular construction allows air to be trapped within the cell, making WHISPER Cellular Shades an energy efficient window covering solution.
- The Cellular Fabric range is available in selection of colours, cell sizes and opacities. The distinctive fabric range includes warm and casual fabrics, textured fabrics and fabrics with a luminous shine which are available in whites, natural beiges, grey tones and pastel colours providing an extensive colour palette. The translucent, blackout and sheer fabrics provide the ultimate in privacy and light control.
- The WHISPER Cellular Fabric range is made from anti-static non-woven polyester that aids in the resistance of dust making this durable fabric easy to clean and maintain.
- WHISPER Cellular Shades are available with a variety of standard & specialty lifting systems & shapes to cover most window applications and provide Child Safe window covering solutions.
- Light and privacy control is easily achieved with a variety of design options including a Top Down/Bottom Up option.
- The construction keeps every cell crisp and consistent from front to back and top to bottom.
- The sleek, low profile, colour co-ordinated Standard Cord lock Headrail is unobtrusive & minimises the stacking height.
- With no visible seams, cords or cord holes, WHISPER Cellular Shades offer you a sleek, streamlined and contemporary window covering solution.
- WHISPER Cellular Shades are covered by a 3 year warranty.*

WHISPER® Sheer Shadings

Simple, stylish and highly functional WHISPER® Sheer Shadings diffuse light to a soft glow while allowing you to maintain your view. Innovative and elegant WHISPER Sheer Shadings combine a series of tilting fabric vanes suspended between two layers of sheer fabric, offering the ultimate in light control and privacy.

- WHISPER Sheer Shadings feature two layers of sheer fabric, separated by a series of floating, soft fabric vanes. The vanes impart a gentle glow of colour to your room when closed and almost disappear when open to gently diffuse the light combining privacy with a softly filtered view.
- When opened the fabric vanes filter the light while preserving the outside view, when tilted, the fabric vanes further soften the light and, at the same time, soften the view and when closed, the fabric vanes provide complete privacy without total darkness.
- WHISPER Sheer Shadings are available in 50mm and 65mm vanes sizes and in translucent and room darkening opacities in two very distinct fabric ranges.
- 100% Polyester fabric is durable and anti-static to repel dust making the shade easy to maintain.
- The EasyRise Lifting System raises and lowers the shading and tilts the vanes with a single continuous cord, while the Motorised Lifting System offers the same control at the touch of a button. Both lifting systems provide Child Safety.
- Featuring colour coordinated hardware, the fabric is totally concealed in the Headrail when raised.
- WHISPER Sheer Shadings are covered by a 3 year warranty.*

WHISPER® Cellular Shades

Light and Privacy Control

WHISPER Cellular Shades are available in 3 opacities: **Sheer**: diffusing light whilst maintaining the outside view, **Translucent**: gently filtering light whilst providing privacy and **Blockout**: providing total room darkening and privacy.

Ultimate Control: Bottom-Up, Top-Down, Top-Down/Bottom-Up and Duo-Lite.

WHISPER® Cellular Shades

Total Control

The unique design options of Cellular Shades allow privacy and light control like no other window covering solution. Choices include:

Bottom Up:
window covering raise from the bottom.

Top Down:
window covering lowers from the top.

Top Down/Bottom Up:
window covering raises from the bottom and lowers from the top, with the fabric stack meeting in the middle.

Duo-Lite:
combines a sheer or translucent fabric with a blockout fabric on the one window covering allow the ultimate versatility in light and privacy control.

WHISPER® Sheer Shadings

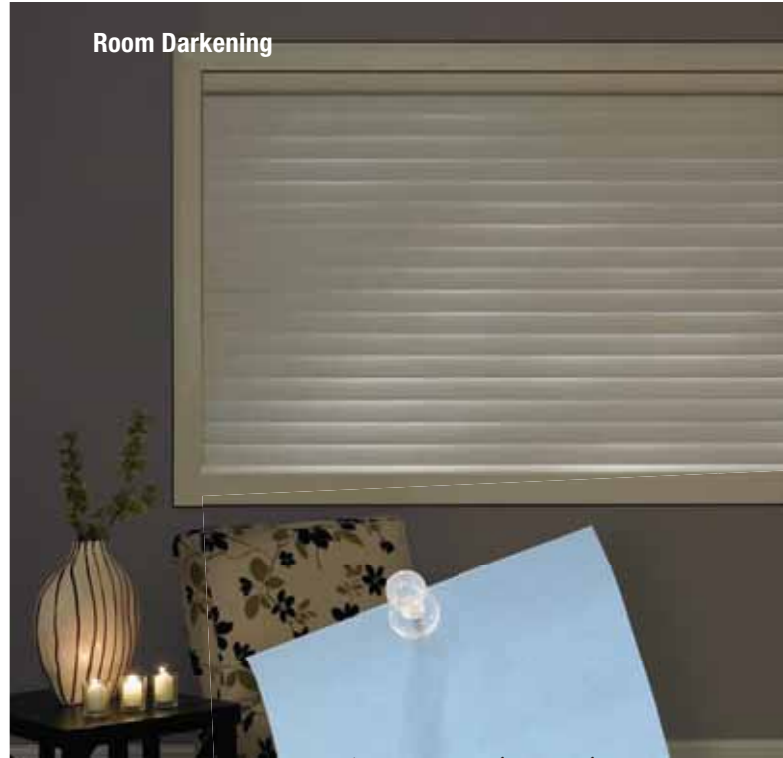

Light and Privacy Control

WHISPER Sheer Shadings are available in 2 opacities: **Translucent**: fabric vanes diffuse the light to provide a warm glow and **Room Darkening**: the fabric vanes help darken the room.

WHISPER® Shades

Lifting Systems

Cellular Shades Lifting Systems cover almost any window shape.

Standard Cord Lock

Fabric stacks at the top of a slim headrail for a simple traditional look. Cords can be neatly secured around cord cleats when the shade is raised.

EasyRise

Continuous cord loop operation to easily raise or lower large shades. Secure window frame mounting of the cord tensioner ensures enhanced child safety.

LiteRise

Cordless lifting system providing the ultimate in child safety, with raising and lowering achieved simply with the touch of a finger.

Motorised

Effortless operated by remote control, perfect for hard to reach windows.

Shapes

The perfect solution to almost any window shape, from circles to triangles to sloped shades. Shown teamed with a rectangular operating shade to cover most window applications.

Skylight

Ideal for skylights, windows on sloping walls or any hard to reach window. Can be operated by either hand or an optional extension pole.

Design Options

Design Options to meet all light and privacy needs

Bottom-Up

Raises from the bottom only.

- Standard cord lock
- LiteRise
- EasyRise
- Motorised
- Skylight

Top-Down

Lowers from the top only.

- Standard cord lock

Top-Down/Bottom-Up

Moving centre rail and bottom rail open the shade top down, bottom up, or both.

- Standard cord lock
- LiteRise
- EasyRise

Duo-Lite

two fabrics on one window covering provide the ultimate solution for both light control and privacy, as you simply adjust the amount of each fabric you would like to see.

- Standard cord lock

WHISPER® Sheer Shadings EasyRise and Motorised Lifting Systems

EasyRise

EasyRise Lifting System – continuous cord loop easily raises and lowers the window covering. As well as tilting the vanes for privacy and light control. The cord tensioner mounts securely to the window frame for enhanced child safety.

Motorised

Motorised Lifting System - electric powered system easily raises and lowers the shading and is available with switch control and/or remote control. The vanes can be tilted for privacy and light control and no cords means enhanced child safety.

Care and Cleaning

WHISPER® Cellular Shades & WHISPER® Sheer Shadings are easy to clean and are designed to be dust resistant.

WHISPER® Cellular Shades cleaning methods:

For Translucent Fabrics Bathtub# Cleaning - water immersion

Step 1.

Fill a tub with warm water and mild detergent. Immerse the fabric of the shade into the water, being sure not to submerge the headrail.

Step 2.

Rinse with clean water.

Step 3.

Before removing from the rinse water, fully close the shade and tilt it to allow excess water to drain off.

Step 4.

Reinstall the damp shade, lower it and let it dry completely.

OR

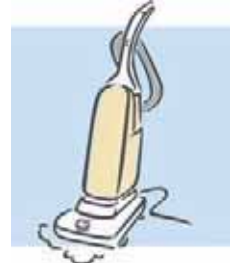

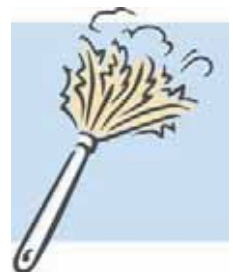

WHISPER® Sheer Shadings cleaning methods:

Dust

In most cases light dusting is all the cleaning that is required. Compressed air or a hair dryer on a low setting will also remove dirt or dust from shades.

Professional Services#

Professional ultrasonic cleaning services are an effective means of cleaning **translucent** fabrics. Room darkening fabrics cannot be ultrasonically cleaned.

**OR
for both**

WHISPER® Cellular Shades & WHISPER® Sheer Shadings (Other Cleaning Methods):

Dust

In most cases light dusting is all the cleaning that is required. Compressed air or a hair dryer on a low setting will also remove dirt or dust from shades.

Vacuum

For deeper cleaning, vacuum with a brush attachment.

Spot Clean

Prepare a solution of warm water and mild detergent, dampen a clean white cloth and gently dab the spot. Note: Rubbing can damage fabrics.

Professional Services#

Professional ultrasonic cleaning services are an effective means of cleaning translucent^ both fabrics. Blockout fabrics cannot be ultrasonically cleaned.

Bathtub cleaning and professional ultrasonic cleaning are not suitable for blackout and room darkening fabrics.

^ All translucent Cellular Fabrics can be ultrasonically cleaned excluding Sunterra & Millenia.
